Work Experience

NeuAnalytics | *Software Developer & Team Lead*

September 2020 – Present

- ♦ Continuous development on Work Management and Content Management System an ASP.NET MVC application
- ♦ Developed client and server-side code for our Bulk Uploads used for importing Users and Portfolios to assist with onboarding new clients
- ♦ Enhanced and improved C# Business Rules Engine used for decision making based on predefined rules and complex workflows
- ♦ Migrated 8+ pages from Angular JS to React while creating common reusable components
- ♦ Contributed to RESTful Web Service primarily used for imports and exports of flat and delimited files
- ♦ Led a team of 4 developers assisting with technical details, documentation, and mentoring during a transition period
- ♦ Created quarterly Objective's for the team and held accountable to accomplish Key Results
- ♦ Managed 2-week sprints cycles and deployments to ensure successful automated Octopus deployments

NeuAnalytics | *Software Developer*

April 2017 – September 2020

- ♦ Created a job inside a C# Windows Service that sends email alerts after files had been processed
- ♦ Developed client-side code in React for users to self-manage email alerts
- ♦ Refactored legacy dynamic distribution process to generate uplift and MRR of additional 10K per month
- ♦ Led ETL implementation for new clients and vendors from development to production stages
- ♦ Created a common reconciliation process used to monitor account locations and corresponding balances
- ♦ Constructed tables, views, functions, indexes, and other procedural code in T-SQL
- ♦ Assisted UI team by helping with bug fixes and new features using HTML5, CSS, AngularJS, and React
- ♦ Contributed deploying releases to UAT, staging, and production environments in 2-week sprint cycles
- ♦ Optimized SQL procedural code to increase performance and decrease overhead

NeuAnalytics | Development Operations Analyst

November 2015 – April 2017

- ♦ Constructed various ad hoc reports with Microsoft Report Builder for management and executives
- ♦ Wrote SQL queries to identify data discrepancies and assist with troubleshooting
- ♦ Rotated on call to ensure 24/7 support and 99.999% up time
- ♦ Built SSRS reports based off business requirements given from our Client Operations Team
- ♦ Created Key Performance Indicators as well as display them on internal dashboards
- ♦ Assisted DBAs with disaster recovery tasks such as failing over to another server and ensuring SQL agent jobs ran successfully and accurately
- ♦ Developed test scripts for QA to validate new logic that was added to specific jobs or stored procedures

PNC/Midland Loan Services | Loan Servicing Analyst II

July 2013 – November 2015

- ♦ Accurately reported on approximately 40 commercial mortgage-backed securities to investors, rating agencies and other capital markets as directed by servicing contracts while meeting agreed deadlines
- ♦ Productively accountable for multimillion-dollar wire transfers to trusts and other related external parties dealing with principal and interest collections, taxes, insurance, curtailments, balloon payments, etcetera
- ♦ Reconciled internal monthly advancing tie-outs with executive management and PNC corporate
- ♦ Worked in a team environment as well as an individual on special projects dealing with claw backs, investment grade bonds, miscellaneous/late fees, property protective advances, other loan servicing fees
- ♦ Managed advances on trust expenses and the repayment to corporate
- ♦ Created a custom form in MS Access used daily to account for delinquent payment

Leadership Activities**Growth Accelerated Program | Nominee & Participant**

February 2020 - February 2021

- ♦ Selected by Leadership to participate in a year-long program that guides individual contributors to evolve into leaders within the organization at NeuAnalytics
- ♦ Attended remote IMS workshops and conducted teach back sessions for Management and Leadership
- ♦ Reviewed a Harvard case study called *Analyzing Work Groups* with the CEO and the GAP facilitator
- ♦ Presented my Stretch Project over the Automation of QA a topic that was chosen as one of the biggest gaps at our organization
- ♦ Read and analyzed 4 management and leadership books with GAP colleagues and facilitator
